### What is KAOS?

*Kreative Arbeitsgemeinschaft Oberschöneide*

KAOS / „Kreative Arbeitsgemeinschaft Oberschöneide“ stands for cooperative working space Oberschöneide. KAOS is a collaborative thinktank for young creatives located in the former East Berlin. The enormous waterfront red brick building has been converted from a 20th century electric factory. The collective consists of fifty different designers, artists and hand crafters with different specialities including; product, graphic and textile design, metalwork, masonry, carpentry, gold and blacksmithery, screen-printing, fine art, architecture, audio production, film making, traditional and digital photography and alchemy.

### Why Crowd funding?

Since we began in 2013, a lot has happened. Every wall, studio or working space has been meticulously erected by the creatives working here. The collective has made every effort and exerted all its additive energies in order to create a comfortable organic progressive working biosphere that breeds creativity in all specifications of the thinkers working within. Despite our best efforts, we are slowly approaching our economic limitations.

We are raising funds for the following:

- Heating and insulation (for warm feet in winter)
- a sanding and painting system with extraction hood (for a healthy air)
- updated machinery (for safe working)
- expansion of our existing artists' workshops and studios
- job creation and employment stabilization
- the capability of conversion of the public space for events and social functions

### Why should I support KAOS?

With your support, we can continue with the construction and finishing off our working studios and event rooms. Thus, you extend and reinforce the creative zeitgeist that defines Berlin. Your support enables KAOS to continue making, creating, collaborating and applying art in the contemporary world. Furthermore, you guarantee a venue for culture, education and public events. So be part of the community.
